

Warranty Policy

MTI Aviation, Inc. (MTI) offers warranties in respect to the repair and overhaul of aircraft components.

MTI warrants that all work accomplished will be free from defects resulting from faulty workmanship and/or faulty materials in replacement of spare parts used during the repair or overhaul procedure.

MTI's warranty is in effect upon immediate receipt of the component by the customer and will remain in effect for a period of twelve months on overhauls and six months on repairs and it relates to all defects discovered within this warranty term.

MTI is not obligated to repair under warranty any component defective due to improper use, mis-handling, tampering or improper and/or inadequate storage. MTI warranty seals and safety wire must be intact and free from tampering. This warranty does not extend to normal wear and tear, accidental or consequential damage.

MTI must verify and confirm the validity of any claim under warranty. If customer warranty claim is verified and accepted, MTI will repair at no charge.

Any component claimed under warranty shall be returned properly and safely packaged to MTI. Following the warranty repair by MTI the warranty shall once again commence from the date received by the customer.
